

# includeRnw - manual

v0.0.1

(build 3)

Andreas Strauman

April 21, 2018

If you found any bugs or want new functionality, to contribute, view the commented source, get latest version of this package or get in touch with me, you can do all of that at <https://github.com/Strauman/includeRnw/>. If you have questions of functionality, kindly direct them to the community <http://tex.stackexchange.com>. The author is active on this site regularly.

## Contents

<b>1</b>	<b>Reference</b>	<b>2</b>
1.1	References . . . . .	2
	<code>\includeRnw</code> <sup>→P. 2</sup> . . . . .	2
<b>2</b>	<b>Changelog</b>	<b>2</b>

# 1 Reference

## 1.1 References

`\includeRnw[ $\langle h \rangle$ ]{ $\langle path/to/file.Rnw \rangle$ }`

**N**v0.0.1  
2018/04/20

Compiles .Rnw-files using R. Assumes that R can be called from the command line. Use the `[ $\langle h \rangle$ ]` to prevent `\includeRnw` from actually knitting the file, but only include the knitted .tex file

# 2 Changelog

v0.0.1 2018/04/20 Created the package
