 $\verb|\includeRnw|| \langle h \rangle | \{\langle path/to/file.Rnw \rangle\}|$

Nv0.0.1 2018/04/20

Compiles .Rnw-files using R. Assumes that R can be called from the command line. Use the $\lceil \langle h \rangle \rceil$ to prevent \includeRnw from actually knitting the file, but only include the knitted .tex file
